

AGBOT™

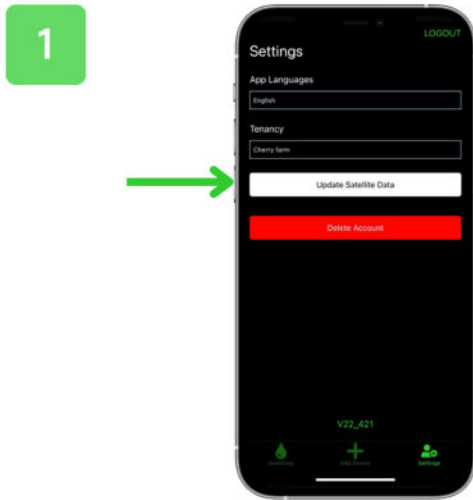

SATELLITE UPDATE GUIDE

MODELS 33101 & 33102 (SATELLITE)

1. SATELLITE UPDATE

i Cellular data or wifi is required for steps 1 & 2. Visit <https://agbot.tech/helpful-videos/>
Please download the latest Agbot app before commencing these steps.

First, download the latest Agbot app. Open the app and go to "Settings", click on **"Update Satellite Data"** to start the network information update process.

Press the blue **"Refresh"** button and wait for the pop-up to say **"File Saved Successfully"**. The Satellite positions are now stored in your App, this data will be transferred once you NFC tap the device and the update is complete.

Now, go on site to where the Agbot device is located. The device can remain clipped into the base or place it on a flat surface.

The Satellite Update will take approximately **3 minutes** and the phone & Agbot must remain stationary and in contact during the process.

Remove your phone case or any magnets.

Press **"Update Device"** to start the transfer process.

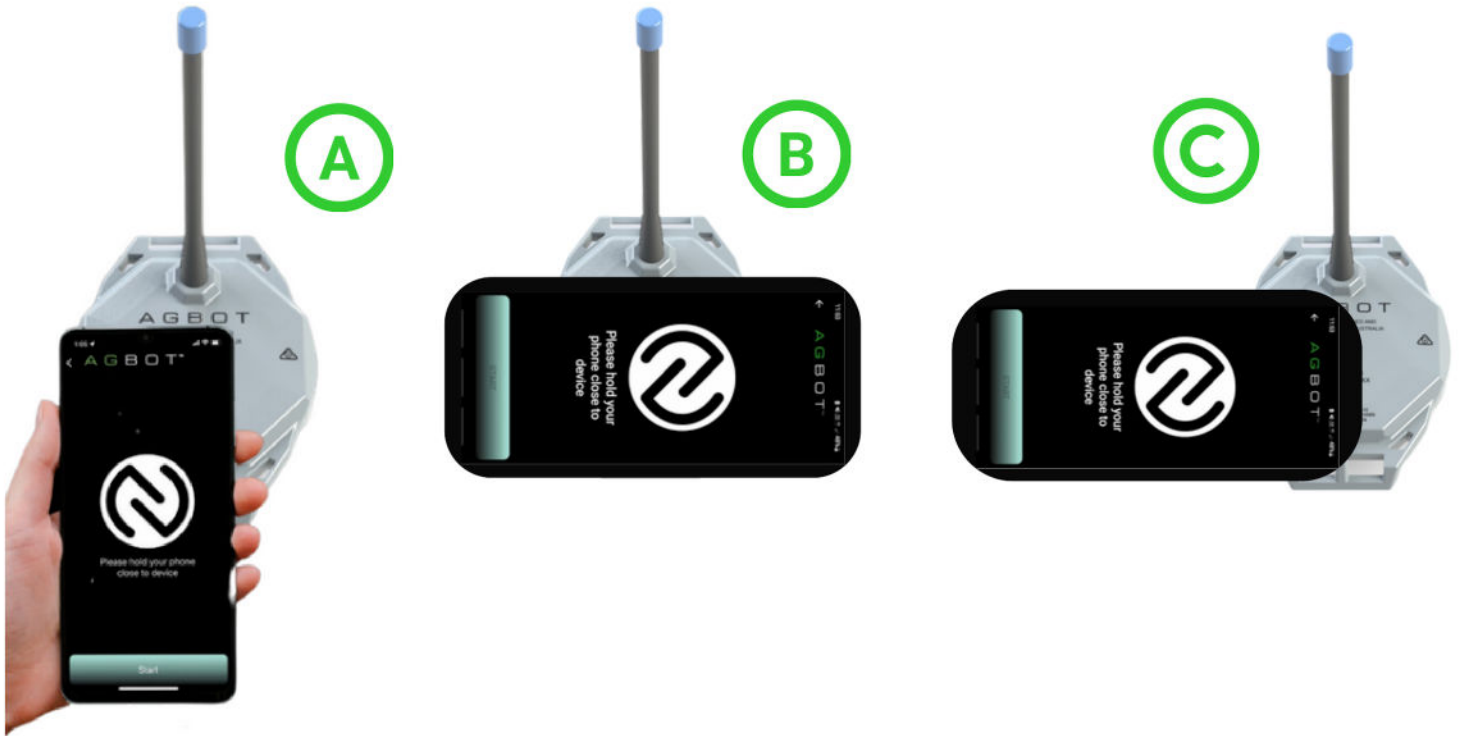

For iPhone, place the phone on the left side of the Agbot device, with the top right of the phone on the QR code or NFC icon (dependent on Agbot model). The phone must be contact with the device. When the phone is in the correct position you will feel a vibration to indicate that it has connected with the Agbot device. **DO NOT MOVE YOUR PHONE.**

Please note that the 'Ready to Scan' pop-up will appear repeatedly during the process. The update will take approximately **3 minutes**.

TROUBLESHOOTING

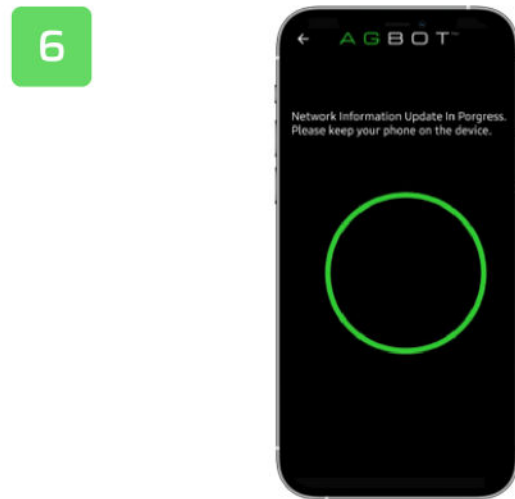

IF YOU DO NOT SEE THE CIRCLE SHOWN IN STEP 5, IT IS LIKELY THAT THE NFC ANTENNA IN YOUR PHONE IS NOT ALIGNED TO THE NFC CHIP IN THE AGBOT DEVICE.

PLEASE WAIT 5 MINUTES BEFORE TRYING AGAIN. AFTER 5 MINUTES, SELECT ANOTHER POSITION SHOWN BELOW.

When the phone is in the correct position, it will begin updating the satellite data and you will see a circle on the screen.

KEEP YOUR PHONE STATIONARY AND IN CONTACT WITH THE AGBOT DEVICE. DO NOT MOVE YOUR PHONE.

Keep the phone in this position for approximately **3 minutes** until the green circle is complete.

The screen will show the message **"Network Information Updated Successfully"**, you can now remove your phone.
